9313274099 | devanshime16@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

WordPress Backend Developer with 2.5+ years of experience building and maintaining custom WordPress and WooCommerce solutions using PHP, REST APIs, MySQL, ACF, and custom plugins. Experienced in handling client requirements directly, translating business needs into technical solutions, troubleshooting production issues, and coordinating with project managers, designers, SEO specialists, and developers.

PROFESSIONAL EXPERIENCE

iFlair Web Technologies Pvt. Ltd. Sep 2025 – Nov 2026
WordPress Developer *Ahmedabad, Gujarat*

- Developed and maintained custom WordPress and WooCommerce solutions involving business logic, custom functionality, automated workflows, database operations, and third-party integrations.
- Integrated REST APIs, payment solutions, and external services, while extending existing themes, plugins, and codebases to meet project-specific requirements.
- Diagnosed and resolved production issues involving PHP, WordPress, plugins, themes, APIs, databases, performance, and security; also handled migrations, maintenance, optimization, caching, and deployments.
- Worked directly with the Project Manager and clients, independently gathering requirements, discussing technical solutions, providing progress updates, resolving issues, and participating in client meetings.
- Collaborated with designers, SEO specialists, and developers to coordinate technical implementation and deliver project requirements.
- Assisted and guided other developers when required, helping coordinate development tasks and ensure timely completion.

OlixLab Jan 2024 – Aug 2025
WordPress Developer *Surat, Gujarat*

- Developed and customized WordPress websites, custom plugins, themes, and WooCommerce solutions, implementing client-specific functionality using PHP and WordPress.
- Implemented WooCommerce subscriptions, payment gateways, custom checkout functionality, and third-party API integrations, along with performance optimization, security, debugging, and production support.
